

THE WITNESS TREE

A tree once stood proud and tall. It was solid and pure and able to withstand any demand put upon it.

One day it was asked to bear a burden greater than ever before, yet it did not break or bend but stood tall as if to say, "Nothing can break me because I was made for this".

It was the last time that the tree was ever asked to bear such a burden because it bore the sins of the entire world upon it as a witness of God's love for us.

So when you see the cross, see it also as a tree... the witness tree.
